COMPLETE BUSINESS
Any Where Any Time

- Restaurant
- Grocery Store
- Medical Store
- Boutique

KEY FEATURES

Pocket POS is an affordable, simple and efficient Point-of-Sale POS system that operates on tablet, PCs and mobile devices. It is an innovative solution to replace the traditional till system and provide modern day businesses with not only a tool for till management but also varieties of support to facilitate better decision making. When you start up a business there is so much to consider. Therefore an affordable, simple and efficient POS system can really help you manage many aspects of your business. It doesn't matter if it's a restaurant, café, retail shop or even a launderette, our system is extremely flexible to suit your way of working. Your sales information can be effortlessly stored and accessed for analytic purposes.
